

### PFAS Regulatory Changes: Affecting Our Industry

#### How does PFAS legislation affect the Upholstery Textile / Furniture industry?

PFAS have been commonly used as stain and water-repellents in performance textiles for many years. **This affects performance textiles from all fabric suppliers, not just Burch.** All textile producers, suppliers, and finishers are working collectively to remove PFAS from products to adhere to future legislation.

**\* What states currently have legislation banning the sale of PFAS?**

This applies to fully upholstered furniture that will be installed/staying in the listed state:

**California** as of 1/1/2025

**Colorado** as of 1/1/2025

**Minnesota** as of 1/1/2025

**What products are affected by PFAS industry-wide?**

Any woven textile that has been finished with a soil and stain repellent based on conventionally used fluorocarbon chemistry.

**Does being PFAS Free mean sacrificing performance?**

Typically, yes. Most upholstery textiles, that are conventionally produced, but simply using a PFAS free water-repellent, have proven to be less effective in repelling stains, particularly oil-based ones. More than ever, stains will need to be addressed promptly and correctly by following the manufacturer's published cleaning instructions.

#### How does PFAS legislation affect my Burch order?

**\* How do I make sure my order is filled with PFAS Free fabric if it is being installed in California, Colorado or Minnesota?**

1. Please clearly denote "Must be PFAS Free" on your purchase order.
2. If you want to confirm PFAS Free stock is available for your order, please contact [burchfab@burchfabrics.com](mailto:burchfab@burchfabrics.com) to confirm the color you need is available in the PFAS Free formulation.

**Which Burch Patterns are already PFAS Free?**

The majority of Burch's products are (and have always been) PFAS Free including:

**All Coated Fabrics (Vinyl, Polyurethane, Silicone)**

**All Panel and Acoustic Fabrics**

**Any Woven Fabric Without a Soil and Stain Repellent Finish**

**Any Woven Fabric Introduced in 2023 and Newer**

**Will Burch fabrics that contain PFAS be reformulated to be PFAS Free?**

**Yes.** In anticipation of regulatory changes, Burch has been proactively transitioning all applicable fabrics to a PFAS Free formulation. The current status of a product's transition to a PFAS Free formulation is dependent on SKU, finish, and fabric receipt date.

**How can I find out if a Burch fabric is PFAS Free?**

1. Reference the attached list (next page). If a product is listed in transition, simply contact [burchfab@burchfabrics.com](mailto:burchfab@burchfabrics.com) to confirm the color you need is available in the PFAS Free formulation.
2. Visit [burchfabrics.com](http://burchfabrics.com) and use the Fabric Finder to filter your search. Select "PFAS Free" in the Attributes menu. Click Find Fabrics.

**DISCLAIMER:** Burch refuses to knowingly sell and/or be held liable for any product containing PFAS shipped to states in which laws prohibit the sale or distribution of such product.

**PFAS FREE GUIDE - CURRENT PRODUCT LIST**

PFAS Free Products		Woven Fabrics Transitioning to PFAS Free*		
All Vinyl	<a href="#">(click to view)</a>	801	Heritage	Quartet
