

How to Clean Lumina

PVC Free Polyurethane

Prompt cleaning is always recommended. Ordinary dirt and stains can be removed with mild soap and water. Rinse the cleaned area with water and wipe dry with a clean cloth immediately after cleaning agent is left to sit on the material for a period of time, as it might leave a white residue which can be wiped off with a damp cloth. The material should be wiped multiple times until the residue is removed. Do not let water sit on the material for an extended period of time, as this may leave a watermark.

Recommended cleaning steps are listed by type of stain. For best results follow cleaning steps in order.

Recommended Care and Cleaning Guide:

STEP 1: Regular Cleaning and Maintenance (*Dirt • Dust • Grime*)

Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

STEP 2: Food Stains / Oils (*Ketchup • Chocolate • Coffee / Tea • Salad Dressing • Butter • Soy Sauce*)

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, clean with soap and water. Rinse with fresh water and wipe dry.

STEP 3: Healthcare (*Blood • Urine • Iodine • Betadine*)

Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, spray it with a 70% dilution of Isopropyl Alcohol (Rubbing Alcohol) and water and wipe. Rinse with fresh water and wipe dry with a clean cloth.

Disinfection: This material will withstand a solution of 10% household bleach to 90% water. It is important to rinse the cleaned area with fresh water after applying the bleach solution.

STEP 4: Difficult Stains (*Eye Shadow / Mascara • Lipstick • Crayon • Grease • Mustard • Motor Oil*)

Clean the soiled area with a 50% solution of Isopropyl Alcohol (Rubbing Alcohol) and water.

It is important to rinse the cleaned area with fresh water after applying the alcohol solution. Wipe dry with a clean cloth.

NOTE: The use of commercial vinyl conditioners and protectants is NOT RECOMMENDED.
