

How to Clean Pillar

High Performance Vinyl

Recommended Care and Cleaning Guide:

This product has been developed to emulate the look and feel of soft leather. The unique super dull finish is designed to be low burnishing, non-polishing and resistant to ultra violet exposure. This vinyl has superb tailoring qualities, which make pre-heating and steaming unnecessary and not recommended in the fabrication process. Because of the special leather-like finish, additional precautions should be observed when processing and cleaning. Please avoid contact with marking inks, glues and other staining materials that may damage vinyl during the manufacturing process.

If despite all precautions staining material does come in contact with this vinyl, cleaning should be immediate and should follow these instructions:

Dry Soil, Dust and Dirt, Dried on Dirt:

Remove with soft cloth dampened with water.

Variation in Surface Gloss:

Wipe with a soft cloth dampened with water. Allow to air dry.

Stubborn Dirt:

Wash with a soft cloth moistened with a mild soap and water. Rinse with clean water.

Stubborn Spots and Stains:

Spray with either Formula 409® or CRC 40173 Tannery Leather, Vinyl & More Cleaner®, wiping with a soft cloth. Rinse with clean water.

Liquid Spills:

Wipe immediately with a clean absorbent cloth. Rinse with clean water.

Food, Grease, and Oily Stains:

Spray immediately using either Formula 409® or CRC 40173 Tannery Leather, Vinyl & More Cleaner®, wiping with a soft cloth. Take care not to extend the area of contamination beyond its original boundary. Rinse with clean water.

This vinyl should be periodically cleaned to maintain its appearance and prevent build-up of dirt and contaminants. Any stain, spill or soiling should be cleaned up promptly to prevent the possibility of permanent staining. When cleaning, always rub gently.

CAUTION: Powdered abrasives, abrasive cleaners, and steel wool damage vinyl - as do strong solvents, lacquer solvents and inks. Lotions, suntan oil, waxes and polishes, etc., contain oils and dyes that can cause stiffening and staining of vinyl. Never use heat guns or hair dryers.

NOTE: Stronger cleaners, detergents, and solvents may be effective in stain removal but can cause either immediate damage or slow deterioration. The use of such cleaners is at the owner's own risk.

Cleaning information is offered for general guidance and is not a guarantee. The use of certain cleaning agents can be harmful to the surface appearance and lifespan of a product. Burch Fabrics assumes no responsibility for damage to a product resulting from lack of cleaning, improper cleaning or the misuse of cleaning agents. Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to materials and cause permanent damage. Burch Fabrics cannot be held responsible for dye transfer caused by external contaminants.
